

**PITKIN COUNTY SHERIFF**

**CARROL D. WHITMIRE, SHERIFF**

P. O. BOX 377

ASPEN, COLORADO 81611

PHONE: 303 925-3232

November 24, 1975

Gentlemen:

Enclosed are notes taken from the meeting held in Aspen on November 13 and 14, 1975 at the Holiday Inn in Aspen. The notes are as close to being factual as possible without using the aid of a tape recorder. I hope they will refresh your memory of the meeting and will be helpful.

The Sheriff's and my secretary, Deputy Wiggins was so impressed with the meeting and all of you, individually that she has written down her impressions which I thought would be appropriate to include, see cover sheet.

The Sheriff, Investigator Mike Fisher and myself wish to take this opportunity to thank you for your assistance in making the meeting an interesting and informative experience.

Sincerely,

CARROL D. WHITMIRE, SHERIFF

  
Lt. Wm. H. Baldridge

WHB:mw  
Encls.

11-14-75

Aspen, Colorado

Sitting at my typewriter, sunlight streaming through the window  
A two day, fatigued snowfall submitting reluctantly, to the warm rays  
Slowly, the snow is being besmirched by muddy spots peeking through  
for a last glimpse at the sun before Winter makes its way relentlessly  
to the valley.

Beauty surrounds me, yet I must work away at these keys regarding  
matters not of beauty but of dedicated men, who tenaciously strive  
and struggle to unweave the master demonical workings of a being  
or beings who were also placed here to work through their karma  
What strange quirk of fate or combination of genes separates the  
heroes from the monsters

At what vital point in time is conscience created or on the other  
hand forgotten, dismissed, destroyed  
These are questions that have nagged at me all day today  
Watching dedicated men striving to put together the pieces of a  
puzzle that boggles the mind at its sheer, unbelievably terrifying  
magnitude

What type of twisted mind could spend endless time plotting the  
demise of young women who have barely tasted life  
Cruelly and calculatingly, this perpetrator of evil ticks off the  
minutes and second until he can rob another human being of her  
right to witness another sunrise

I pray for endurance for the dedicated men

Mary F. Wiggins  
Deputy, Pitkin County Sheriff's Department

Aspen Meeting  
November 13 & 14, 1975

On November 13, 1975 a meeting was held in Aspen, Colorado for representatives of various police agencies from Washington, California, Utah and Colorado to discuss cases of great similarity regarding homicides of young females occurring in these states.

The meeting was opened at approximately 9:00 A.M. with a welcoming speech delivered by Carrol D. Whitmire, Sheriff of Pitkin County. A brief welcome was also extended by Lt. Bill Baldrige of the Pitkin County Sheriff's Department, outlining the purpose of the meeting.

Detective Robert D. Keppel of the Department of Public Safety, King County Police Department, Seattle Washington was introduced. The following is Det. Keppel's talk, which centered around the background information collected regarding Theodore Robert Bundy, currently in custody in Salt Lake City and the possible connection of Bundy to the cases discussed at this meeting.

Det. Keppel stated that the purpose of his talk was to take the attendees of this meeting from day one of Bundy's life up to August 24, 1975, when he was arrested in Salt Lake City on charges of Aggravated Kidnapping and Attempted Homicide.

Briefly, Bundy was born in Burlington, Vermont on 11-24-46 to Eleanor Louise Gowell, who was unwed at the time of his birth. Her son was named Theodore Robert Cowell. On 10-6-50 Theodore Cowell's name was changed in a Philadelphia Court to Theodore Robert Nelson. On 3-19-~~75~~ Eleanor Nelson married John Culpepper Bundy in Tacoma, Washington. Keppel stated that Bundy's early life was sketchy. He attended Hunt Jr. High in Tacoma where he evidenced loner behavior and sexual naive'te! His peer group found him masturbating in a closet at school and threw water on him. This was at approximately age 13. Keppel stated that if sex was mentioned Bundy would become violent. He stated that Bundy was left handed and left eyed. He displayed infantile behavior up through fifth grade. He liked to do superior work when he did work. He did not like to be singled out for disciplinary action. In 1965 he graduated from Wilson High School in Tacoma. Bundy worked for Tacoma City Light from graduation in June until September. He then started at the University of Puget Sound in September of 1965. On 3-29-65 he claimed he had been in an accident and had scratches on his face and was embarrassed to come to work. In the 1965-66 school year he was living with his parents and attending the University of Puget Sound. In September of 1966 he enrolled in the University of Washington and met his first girlfriend, one Diane Edwards. He went with her through the summer, still working at Tacoma City Light. He continued at the Univ. of Washington from January 1967 until June and lived at McMahon Hall. From June through August he attended Stanford University, although this has not been verified. He broke up with

Diane Edwards in 1967. Keppel stated that Bundy exploited this girl by using her car and depending on her money to pay for dates, etc. In September of 1967 Bundy went to work at the Seattle Yacht Club as a parking attendant. Bundy would often drive people home from the club who were unable to drive and speculated that this might have been an occasion for Bundy's first homosexual experience. On 1-20-67 Bundy sent his college transcript to the U. of Colorado although he had not yet graduated from the U. of Washington. He also sent transcripts to the U. of Michigan and Stanford Univ. He registered for winter quarter at Washington U. but withdrew on 1-18-68. He sporadically worked at the Yacht Club, again as a parking attendant, working for exclusive dinner parties. He apparently enjoyed the exclusivity of this club and the select atmosphere. He worked at Safeway store from 4-12 to 7-26-68, although it is unknown why due to the disparity of the atmosphere he was accustomed to working. He evidenced sporadic attendance at this job and never came for his final pay check. Keppel mentioned that he did work at the Olympic Hotel in March of 68 but was let go because of theft from lockers. There were no charges or accusations made at this time. He was just terminated. Some time during this period he became acquainted with an older woman, a Mrs. Ferris, who, when interviewed, admitted that she felt he was not an angel, even admitting hating him. Apparently he had absconded with money belonging to her. He was noted for befriending older people, offering to help them, getting groceries, etc. and then exploiting them. At this time it was noted that he was fond of practicing foreign accents. Also at this time had access to a gray VW. On 10-30-68 he sent a transcript to Temple U. Apparently, he was doing a lot of talking about his education but not going to school much. He was also talking a good deal about politics, law and order, etc. and his interest in getting a six year law degree. He entered the fall quarter of Temple U. and was living at Lafayette Hill, PA in Delaware County. At this time, it was noted, that Delaware County had a number of missing females. It was noted that nude bodies were found but this county has 47 different police jurisdictions, complicating solution of these crimes. Apparently, at this time he lived with relatives in Pennsylvania. Mrs. Farris stated she put him on a plane for Aspen and took skis. She also stated she had given him \$100 for this trip. His second stop was Arkansas to visit Cowell family relatives. It seems that Bundy showed up in San Francisco that Spring with Diane Edwards and stayed at a motel in Mendocino, Calif. with her. In September, 1969 he met Liz Kloepfer and began working at Legal Messengers, Inc. as a running boy with legal messages. Some time in this period he fractured his right ankle but no medical records have been obtained to verify this. He apparently had slipped on ice and broken his ankle. His military classification was 2-S (to attend school). He was never 4-F. The lottery was in use at this time but he was able to avoid draft as his name was not called. In September 1969 he was living with Mrs.

Rogers and at Christmas, 1969 went to Ogden, Utah with friends of Mary Chino and stayed in Ogden with Liz's parents. In the Fall of 1969 he was to have attended a traffic school for a bad driving record although this has not been verified. In June of 1970 he re-entered the U. of Wash. for summer school and was still working for Legal Messengers, Inc. He quit in May and went to work for Pedline, a Medical instrument supply company delivering to Doctors' offices. Here he had access to medical instruments. He worked there until 12-31-71. He was out of the state in 1970 from August 29 until September, 1970 on a trip with Liz to Ogden, Utah. He drove through Yakima, Baker, Oregon and Utah, looking over campuses in these areas. In 1971 there is little information. He attended U. of Wash. Jan. through Dec. including summer quarter, still working at Pedline in the U. district and residing with Mrs. Rogers. At this time he also got involved in politics. He graduated with a B.S. Degree in Psychology from the U. of Wash. on 6-10-72. June to September he was employed as a counsellor at H.V.H. Mental Health Center. Here he met Sandy Gwinn. Bundy worked at H.V.H. counselling people on the psycho wards. Sandy Gwinn stated he had no feelings for these people at all. He had a very cut and dried approach. At this time he took Gwinn on various trips and was familiar with areas East of Seattle where bodies were found. Regarding their sexual relationship she inferred that it was a quick slam bang approach by him. He would have sex with her and frequently hold his arm around her neck so that she had to complain to him that she could not breathe. From Sept. until Nov., 1972 he worked for Citizens for Dan Evans for Governor campaign. He apparently did extensive work for them on speaking engagements East of Washington (another area we are interested in). In June of 72 he was recommended for the Seattle Crime Commission and was hired. It was noted that Bundy was in competition with one Tom Sampson regarding reports for the commission. Bundy was doing research on sexual assaults on women and had access to copies of police reports of this nature. However, he apparently didn't get the report he was to have for the commission completed, which meant a loss of money to him. Some time around this period he tried to get a job with the Law & Justice Planning Commission. In the Spring of 72 Liz had an abortion although there are no medical records to verify this as yet. Apparently his affection for her was limited during this period. At this time he registered in a research class at the U. of Wash, which was also attended by Lynda Healy (victim) and they were involved in several of the same projects. In the summer of 72 he took frequent bike trips around Greenlake with Sandy Gwinn as well as sailing on Lake Washington and he also went to Lake Sammamish State Park with Sandy Gwinn. He also visited Sandy's parents at their Alpenthal condominium at which time Karen Covach (Linda Healy's roommate) met Bundy. The Alpenthal is located at a ski area East of Seattle. At this time the expenses of these dates were on Sandy Gwinn as Bundy didn't have any money. In July 1972 Edna Cowell (relative of Bundy's from Arkansas) came up from Arkansas to visit Linda Healy's roommates, who were friends of hers. It was not established that Bundy knew Healy but after her disappearance he would go over to her apartment frequently to visit her

roommates. Healy disappeared three blocks from another missing subject. Subject was never found. Bundy lived three blocks from the latter subject. In June, Sandy Gwinn's car was stolen and she suspected Bundy had stolen it as he was prone to borrowing it without permission. However, she couldn't prove it. Later on it was found that Liz's car was also stolen. In May of 1972 Bundy sent transcripts to five universities as he had been rejected from Utah Law School on May 12, 1972. The universities he sent transcripts to were the U. of Cal. at Berkeley, Hastings College, the U. of Oregon, U. of Utah, U. of Southern Calif. Around this time Liz finds out about Sandy Gwinn and threatens suicide, whereupon Sandy wanted out of the relationship. To gain favor with Liz, Bundy belittles himself, says he is inferior, etc. so Liz takes him back. Keppel, at this time, mentions that the Crime Commission said Bundy was meticulous with his work but unreliable and very tardy. Apparently he was spying on Rosselini, another political figure, embarrassing Rosselini with his constituents as Bundy wore wigs and a removable mustache for these activities and was also spying on Rosselini's sex activities. In December 1972 Bundy is rejected by the U. of Wash. Law School and was upset about this as this is a very prestigious law school. In January he is still on a contractual basis with Criminal Justice Planning. He contracted to them under the name of TRB Associates (his initials) to work for King County. He was paid in \$400 lump sums and was doing a study on criminal recidivism rates. This gave him access to criminal reports. On 3-16-73 he did a recidivism progress report and on 3-19-73 he was to turn in a recidivism summary report which he didn't do, costing him a fee of \$1800. In these reports he became very familiar with problems of police jurisdictions in relation to sexual assaults. In March of 73 Liz notices a 4" bladed knife in her glovebox. Bundy claims that Vortman (an attorney in Seattle) gave it to him. Also at this time Bundy is arrested for outstanding traffic warrants. This was the period when Liz's car was also stolen. Liz, like Sandy, suspects that Bundy stole her car. On the 30th. of March he had a VW key made. In June he applied at U. of Puget Sound Law School. Also in June from 13-15 he stayed at the Mark Hopkins motel in San Francisco. In August he receives a letter of acceptance from the U. of Utah Law School. In August he also had an accident with Liz's car in the U. District, colliding with a police car. This was a minor accident but Bundy sent a letter to the U. of Utah saying that he could not attend the Univ. due to injuries sustained in an accident. At this time, Diane Edwards reappears on the scene and takes Bundy to Alpenthal and stays with him. At this time he grew a beard for a short while, shaved it and grew it again until possibly December of 1973. In October of 1973 Liz had become suspicious of him because she had found womens' clothing in his room, i.e., a large sized bra. Apparently he talked his way out of this by claiming it belonged to his landlady. In the Fall of 1973 he enrolls at the U. of Puget Sound and is in a car pool commuting from Seattle to Tacoma (a distance of 65-70 miles). He would go to class on Monday, Wednesday and Friday nights. He would ride to class but would often disappear during the class. During this time he started jumping out

at girlfriends from behind trees, etc. and scaring them. He would occasionally visit his parents in Tacoma City. He was keeping late hours and would sleep late in the day. He barely passed his mid quarter exams at Puget Sound. They had no attendance records but stated his attendance very poor. At Christmas vacation he injured his head while skiing at Crystal Mountain. He had ski magazines in his car on various occasions. He liked skiing and the ski atmosphere very much. However, he was only seen skiing on one occasion. He was very familiar with ski areas in Washington. At this time a ski hat mask was seen in his car by Chris Sharpe. He had been faithful to Liz but then Diane came back to town. Diane states their sex together being normal. Liz stated that about this time Bundy bought the book "Joys of Sex" and wanted to start experimenting. One experiment was to tie her to the bed with nylon stockings and then have sex with her. He did this on several occasions until Liz cut him off. Liz said he was also strangling her.(?) She then turned down the tying up activity and noticed an extreme change in sex activity thereafter. On 1-4-74 Sparks (victim)(not fatal) was found. She lived six blocks from Bundy and three blocks from Bundy's cousin's house. This subject had gone to sleep at 2:00 A.M. on 1-3-74. At 1630 hrs. next afternoon she was discovered in bed, beaten about the head with a vaginal probe (speculum?) shoved in her. She lived in the U. District where all the houses are alike with similar entries and exits. She lived in a basement apartment. Doctors estimated her injuries not more than 3 to 4 hours old. There was never a period of time that this house was empty on these dates. Bundy had broken up with Diane three days prior to the date of this assault. He was very upset about breaking up with her. The victim remembers nothing. She went to sleep and woke up the next afternoon in the hospital. This house similar to that of Linda Ann Healy. On 1-31-74 Healy disappeared. Healy lived 15 blocks from Bundy. Healy and Bundy both frequented a bar named "Dantes" although he cannot be placed there that night, he went there a lot. Bundy lived four blocks from where Healy worked. Healy majored in Psychology at U. of Wash. with Bundy. She entered the U. of Wash. in 1969 and would have finished her junior year in 1974. Bundy was also in the same psychology research class as Healy. Blood was found on Healy's pillow and on her nightgown in closet. However, her bed had been neatly made. Bundy was a very very neat person and meticulous about his room being neat. Bundy could have had contact with Healy on at least 4-5 occasions. On 3-3-75 Healy's lower jaw bone was found 34 miles from her home at (Taylor Mountain). The previous year Bundy and his cousin's son were known to go riding to look at old barns. They wouldn't go in the barns but just look at them. Bundy, during this time, would slow down at the area where the bodies were later found. On 3-12-74 Manson (victim) disappeared. Donna Manson was last seen at 10:00 P.M. when she left her dorm at Evergreen State College in Olympia to go to a jazz concert. Her friend Tom Sampson lived in Olympia and also went to

Evergreen State College. Bundy played raquet ball with Sampson at Evergreen State College. Manson is still missing. On 4-17-74 Susan Rancourt attended a meeting of dorm supervisors of Central Washington State College, Ellensburg and afterwards disappeared. Her skull was found 3-3-75 at (Taylor Mountain) with jaw broken in three places and her skull had been cracked. Two women have come forward that had seen Bundy trolling U. of Wash. library Spring of 1974. He would, according to them, carry packs of books with his arm in a sling, would drop books and solicit help in picking them up. That early Winter he had skied Crystal Mountain and gotten injured there. Another woman said he used same skam approx. 10:00 P.M. at night with packages and books with arm in sling and dropping books or packages to get assistance. Women cannot positively identify however. One woman was 5'11 and described that she could look him directly in the eye. Another who was 5'7" mentioned that she thought the subject was driving a yellow VW Bug. This girl went to help him with books and noticed no seat in car on passenger side. Bundy was good friend of Terry Storwick who lived in Ellensburg and was friend of Rancourt. Storwick had early morning jogging class with Rancourt. Mrs. Storwick, mother of Terry, recalls Bundy visiting in Spring of 1973. Terry Storwick recalls Bundy visiting Spring of 1974. During this time he frequently rafted on the Yakima River with friends from the Republican Party, at which time, he would often disappear for half hour at a time and frequently the seat was out of his VW (front seat, passenger). Roberta Parks disappeared 5-6-74 from Oregon State U., Corvallis, Oregon. She had been despondent over her father's health. She left her room at 10:00 P.M. to go to the Student Union Building. She never arrived. She was found 3-3-75 at (Taylor Mountain). Her jaw bone was found, no upper teeth; they had been broken off. She had sustained blow to front of head and damage to both sides of skull. Bundy not placed at Oregon State U. He had applied to Salem U. Law School, Eugene, Oregon. Parks was a neat person, would take cosmetics, if she planned to go out. Her cosmetics were found in her room. Her purse with ID and \$15.00 cash was missing. Brenda Ball disappeared 6-1-74. She had been to the "Flame" tavern, which had a bad reputation as a pickup joint. She left at 2:00 A.M. She was found 3-1-75 at (Taylor Mountain). Bundy had made deposits at bank at White Sands area close to this tavern. On 6-11-74 Georgeann Hawkins vanished from her sorority house at the U. of Wash. District in Seattle at approx. 10:00 P.M. Bundy lived 11 blocks from this location. Liz lived 5 blocks from this location. She has never been found. On 7-14-74 Janice Ott and Denise Naslund disappeared from Sammamish State Park, Issaquah, Wash. On 9-4-74 their nude bodies were found 4 miles from the park. Bundy was seen at the state park on 7-7-75 by friends. He was positively identified by two of these people. Bundy was seen meandering down beach on that date. Told friends he was not feeling too well. He had been working for the Dept. of Emergency Services. Bundy was off work two days prior to that weekend, Thursday, Friday (Saturday and Sunday), Monday and Tuesday also off work. Bundy purchased gas that day.

He was reported to be seen at the park wearing white shorts and white t-shirt. He had gone to Liz's house and had an argument with her. Liz was going to Greenlake beach. She saw him at 10:00 A.M. and then didn't see him again until 6:00 P.M. Bundy had his own VW with Liz's ski rack. When she did see him he told her he was not feeling well but proceeded to take her ski rack off his car and changed it back to her car. One witness stated that a man named Ted with a sling on his arm (that he had gotten from a racket ball injury) was going sailing but was seen soliciting help with his sail boat. He was also seen at Emergency Services Dept. with a sling on arm but the next day he didn't have it on. He had dinner with Liz that night but didn't stay with her. He changed his clothes to long pants and t-shirt. Mrs. Farris saw him with cast near Greenlake and Albertsons at this time. Naslund had been on beach at 4:30 P.M. On 9-7-74 her and Ott's bodies were found on North side of highway, four miles away from park. On October 12, 1974, after deer season, just outside of Seattle, 25 miles East of Interstate 25, a hunter saw what he thought was a wig hanging from some brush. He then discovered a human skull. He then noticed some bones near the trail and a large amount of light brown hair. 35-40 feet from that point he found a partially intact human skeleton. One of these two was later identified as Carol Valenzuela who was 18 years old and married. She was on welfare and had come home to Vancouver for welfare stamps. She was last seen on August 2, 1974. The second body was unidentified but the remains have been sent to the FBI Lab. The jaw bone and dental chart were submitted to the National Dental Association and Missing Persons Bureau and the FBI Lab. It has been established that both girls died a sudden death similar to suffocation. No jewelry was found nor any clothing. A tamper holder believed to belong to Valenzuela was found near victims, along with her rib bones and pelvis bone of unknown victim. The unknown victim was the first victim in June or July (six weeks before the disappearance of the second victim Valenzuela who disappeared on 8-2-74). These two victims were found in an area known as Doe Valley, 1/4 mi. up a dirt road in Clark County. It was then mentioned that a man had been seen at the U. of Seattle, using a photography scam. He would stop young women, offer them 30-40 dollars to pose for him park. This man was later identified as Warren Forrest who grabbed a victim, drove her to a shopping center, purchased tape, prophylactics and then took her to the park in Camus, Washington. Forrest was a park employee. He took her down a road 1/4 mi. down in the valley and shot her in the breasts with a pellet gun. He then worked her over with a dildo, put a noose around her neck and led her down a path. He then stabbed her five times with a four inch knife. He took her clothes and covered her with tree limbs. She was later found and the wounds were fortunately superficial. She survived and later positively identified one Warren Forrest as the man and he is currently in the Western State Mental Hospital.

More information was then introduced about Bundy regarding his acceptance to the U. of Utah in 1973. More was said about his "bad auto accident" in the Fall of 1974 and that he was seen only two days during the Fall quarter at school. It was stated that he had to take final exams in January and was worried that he would fail these. He was able to pass these exams with C's and D's. The faculty stated that Bundy was a very unusual person. Most of the professors contacted stated that he was a tremendous salesman. They said that he "used" girlfriends and the room-mates of these girlfriends could always "see though him" both in Seattle and Salt Lake.

On August 16, 1975 he was pulled over by the Utah Highway Patrol. When they first saw him he attempted to duck down but then took off and ran two or three stop signs. The passenger seat of his VW was unbolted and turned around facing the rear of the car. Items found in the car in a satchel were torn strips of bed sheet (white), a piece of multi-colored rope, an ice pick, a crow bar, a pair of pantyhose with spaces for eyes and mouth cut out, a ski hat mask, two unmatched ski gloves, a pair of foreign made hand cuffs, and some glad bag garbage bags (green). At this time he was arrested and charged with Possession Of Burglary Tools. He was asked for a consent to search his apartment. He gave this without questioning why. His apartment was upstairs in an older home. The apartment was immaculate. He had many pairs of patent leather shoes. There was a large meat cutting block and a round wheel above it with a real "buther's" collection of cutting tools. When asked about this he stated that this was a very good conversation piece. Bundy was very cooperative but never asked why his apartment was being searched. He had skis and when asked said that he skied occasionally. He was asked if he had ever been to Colorado, which he denied. A map of Colorado was found in his apartment. Also found in his apartment was a ski brochure. When asked, Bundy stated that he was not planning to go to Colorado but that a friend had left the map and brochure in his apartment. Marked on the ski brochure was the Snowmass ski resort, (Wildwood Inn) (Where Campbell victim disappeared) and the Shadow Mountain Lodge in Aspen. Also found was a Chevron gas receipt from a Chevron credit card and the book, "Joys of Sex". There was a considerable amount of clothing with 7-8 t-neck, long sleeved shirts and a large number of walking shorts. When Bundy was arrested the second time he had a different apartment with little clothing found. After the first arrest he was placed on a 24 hour surveillance and during this period he joined the Mormon Church and with a church group went on an outing near Bear Lake. During this time investigators also asked to photograph his car and took pictures of his back seat which had a large tear at the top of the back seat which matched the earlier description of a witness. Bundy never asked investigators why his car was being photographed. Bundy bailed out of jail on the possession of burglary tools charge. The Murray girl positively identified the car. In the meanwhile the car had been changed. The hub caps were different, the car was shinier, possibly having been sprayed with some type of shiny material. The passenger door was a different color and the car had a new front bumper. When Bundy was asked about this he said that he was getting ready to sell the car, which he did two or three

weeks later. The car was sold to a teenage boy but was later seized by authorities and samples from the car sent to the lab for analysis. Bundy was then served a Court Order to appear for a lineup. When the officer went to serve this paper, Bundy at first blanched white. When he saw that it was for a lineup he said something like, oh is that all. The next day he showed up for the lineup but had cut his hair short. He was identified, nonetheless by a teacher from the Bountiful area and another girl from Bountiful (with regard to the Kent girl's disappearance). During the time the investigators were checking on him on campus, talking to professors, etc., he continually followed them around telling them that they were doing a good job, etc. Investigators said he has blue, piercing eyes that you would never forget. Bundy was brought to the Captain's office at Salt Lake in regards to "vicious rumors of other crimes". Bundy's attorney protested even though Bundy tried to answer questions his attorney blocked him from doing so. At no time did Bundy actually protest or deny anything. His attorney said he would not let his client talk to anyone from any other jurisdiction.

On November 8, 1974 at the Fashion Palace Mall, one Carol De Raunch was approached by a man professing to be a police officer with the Murray, Utah Police Department. He stated ~~his~~ car had been broken into ~~while he was at the cleaners~~. He walked to the mall to a light colored VW. He identified himself to her with a full badge and he got her to go with him, drove a block and pulled up by an elementary school, pulled a small caliber revolver on her. A struggle ensued during which time he was able to get one hand cuff on her. She was able to see what might have been a crow bar in the car. During the struggle another car approached, the lights shining on Bundy's vehicle and she was able to get away and was picked up by that car after Bundy had fled. She recalled a soft object in front of the passenger seat but was unable to identify what it was. She did have blood on her jacket which was O type. Her type is A-Positive. Later that same evening, November 8, 1974 one Debra Kent left Bountiful High School at approx. 10:00 P.M. to pick her brother up. She never picked him up and she was never seen again.

On October 18, 1974 the daughter of the Chief of Police of Midvale, Utah, Melissa Smith was given two dollars from her father for pizza. She was going to spend the night with a girlfriend. She left "J.B.'s" a restaurant across the street from where the DeRaunch girl had been picked up. This girl was found on 10-27-74 in oak brush in Summit County, nude with a nylon stocking tied around her neck. She had been beaten around the head and strangled. Drag marks were found on her body, similar to the Campbell victim. These were drag marks or burn marks similar to being thrown from a car and sliding along the pavement. Bundy apparently was seen the night of this occurrence soliciting girls to help with his auto. At the time he was first seen it was noted that he was calm and neat in appearance. He was seen

that same evening in a very disheveled state. This victim (Smith) showed evidence of anal intercourse. Liz had stated that Bundy had asked to have anal intercourse with her but she did not like it. Liz's father, who is a doctor, on talking with investigators said, although he was not a psychiatrist, and couldn't give a professional opinion, that he felt Bundy was a schizophrenic. Dr. Hurst had gone hunting with Bundy. In September of 1975 Bundy sold his car to a high school boy. He worked April to June of 1975 at Dallas Hall Dorm but due to the supervisor's opinion that he came to work drunk and came to work late and left early he was asked to quit. In June he worked as a night watchman. However, upon investigators checking on him, he was let go. Bundy had the 1968 VW and an older model pickup truck. This pickup apparently was in pretty run down condition. In February Bundy bought Utah license plates. He said he lost this set and applied for a second set. However, the first set were used after application and receipt of the second set. He also had Washington Plates while in Colorado. Though Bundy can be placed here in Colorado on 9-5-75 he discontinued his Chevron card with a letter saying that he wanted to get his balance paid up.

Note: There was then a general discussion as where and when Bundy had used his credit card, distances from victims, etc.

Writer's Note: The following is as much as I could get from this discussion. It was hard to follow as several times more than one person would be speaking. However, I will attempt to get a copy of the order of these credit card purchases and include it with this report. I will, however, indicate what information I did get.

In 1973 the areas where Bundy can be placed were Washington, Seattle, these were in Jan., Feb. Mar. April in Seattle, May Seattle and Tacoma, June Olympia, July 1974 Seattle, Olympia, Merc. Isle, August Olympia, Tacoma, Sept. Oregon, Seattle, Yacam, Boise, SLC, Washington, Murray Utah, & Salem., Oct. SLC, Bountiful, Nov. Salt Lake, Hebler, Dec., Ogden, Jan. SLC and on the 10 and 12 in Glenwood Springs, Colo., on the 13 in Green River on the 23 in Seattle on 31 in SLC, in Feb. SLC in Mar. Wyoming and Dillon on the 15th. at Silverthorne, Colo. on the 15, in Golden, Colo. in April, SLC in May, SLC in June, Washington and Idaho in SLC on the 13 in July SLC, Aug, SLC in April Grand Junction, Colo.

Bundy owes the U. of Utah \$1,990 for an emergency loan. Not known what this loan was for. Dr. Hurst says Bundy knows many foreign dialogues. Keppel then went over the items found in Bundy's apartment and also mentioned that Bundy made a call on 6/16/75 to the Denver Post. They were unable to find out who he spoke to however. On the 31 of October, 1974 Laura Aimie left Salem, to go to American Fork, Utah. It was speculated that she was making drug buy at a cafe called "Browns". Bundy had been seen there frequently in January using name of Jack, Ted or Terry. She was found 11-22-74 in American Fork Canyon with a nylon stocking around her neck. She had been strangled and had massive blows to her head. She also had a necklace on that did not belong to her. Her hair had been shampooed after the attack and all the blood

had been drained from her body. On 10-2-74 one Nancy Wilcox, a possible runaway, disappeared from her residence in Salt Lake and was never seen again. On July 4, 1975 one Nancy Baird was last seen when she left her place of employment, a Fina fas station, East of Layton (30 mi. from SLC). She disappeared about 5:30 leaving her purse with a cashed pay check she had received that day for \$130.00. Her car was still at the station, locked. She was not a straight-laced girl but had a four year old son and was thought to be a very good mother. She was living with her parents. Later there was a rumor that she had been seen in Denver but this was never confirmed. She has never been found.

Slides were then shown of the Aimie and Smith victims. Both of these victims showed food particles in the stomachs during autopsies. The Aimie victim also had 1.0 alcohol in her system.

There was a brief talk by Det. Sgt. Butch Carlstedt from Sonoma County Sheriff's Dept. in Santa Rosa, California. He spoke about 8 female homicides from February, 1972 through December, 1973. He said that they could not connect Bundy with any of their homocides. Captain Jim Caulfield also from Sonoma County then spoke and he brought out the fact that the Univ. of Nevada had offered to computerize all the data on the homicides that had occurred in these states and see if they could be of some assistance in the solution of these crimes. Captain Caulfield stated that if any agencies were interested they should contact him and submit any information they had. He mentioned that names could be deleted if so desired.

Mention was then made about another suspect, Daniel A. Aspido who is currently in death row in New Mexico. His FBI # is 958056D.

Lt. Ron Smith of the Grand Junction, Colorado Police Dept. then spoke. On 7-2-74 a Salt Lake Hitchhiker, one Sandra Weaver was found in Grand Junction dumped off the side of a road. This 23 year old girl had been manually strangled and was found nude except for a necklace and ring. She had left Salt Lake on 7-1-74. He also mentioned another homicide involving the work of possibly an occult-oriented murderer. He said this victim was found with seven slash wounds across her chest and an unusual cross carved in her breast, which he drew an example of. He mentioned that if anyone had any information with occult type homicide to contact him. He then went on to his second victim, which might be related to the other homicides being discussed at this meeting. On April 6, 1975 one Denise Oliverson of Grand Junction got on her bicycle and was never seen again. The bicycle was found ten blocks away, three blocks from the river. Oliverson is 5'4½ tall, brown hair, blue eyes. Her shoes were found close to the bicycle.

Mike Fisher of the District Attorney's Office in Aspen, Colorado then spoke of the case that he and Lt. Baldridge of the Pitkin County Sheriff's Department had been investigating. On 1-11-75 Caryn E. Campbell, a nurse from Michigan was in Snowmass, Colorado to attend a medical convention with her fiance and his two children. They were staying at the Wildwood Inn at Snowmass. On the evening of 1-11-75 they had had dinner at approx.

6:00 P.M. at the "Stew Pot", a restaurant near the Wildwood. After dinner the couple had stopped at the drug store in the mall at Snowmass to look for magazines and then stopped in the Lobby of the Wildwood. Caryn had told another doctor in the group that she would go to her room and get a magazine for him. She headed for room 210, taking the elevator. She was seen exiting on the second floor by six people who were in the elevator waiting to go down. She was never seen again. Twenty-seven days later on 2-17-75 she was found 2.8 miles from the Wildwood Inn in a field off of Owl Creek Road, nude. Two gold earrings were found, one still on one ear and one on the snow nearby. At the time she was dumped it was 15 to 20 below zero. No clothes were found nor her key to room 210. All her belongings were left in the room. There were no witnesses found after two weeks of solid interviewing of everyone in the Wildwood and all other surrounding lodgings. She had suffered severe blows to the back of her head although when found her body had been partially eaten by coyotes (left side of body and head). Fingernail scrapings disclosed blue, red, & gray synthetic fiber scrapings. Time of death was set at approx. two hours after abduction. She had contents of dinner sill in her stomach. Cause of death was listed as four blows to back of head which would have put her in sever coma state but exact cause of death was probably due to exposure. Bundy purchased gas on 1/12/75 in Glenwood Springs, Colorado twice on 1/12/75. Glenwood Springs is a distance of 42 miles from Aspen, Colorado. One gas attendant from one of the stations(Chevron) could not be interviewed as he had committed suicide in Denver in March of 1975. The attendant from the other station was unable to make positive ID of Bundy although Bundy had used Washington plates and then Utah plates.

Fisher also stated that in March of 1975 a ski instructor in Aspen was approached by a crippled guy to help him with his brief case. She is coming to Aspen to look at the picture of Bundy.

It was noted that Bundy and Harris were both in Aspen at the time of Campbell's abduction. Campbell had to go willingly as there were plenty of people around at that time of night who would have noticed unusual actions. The parking lot of the Wildwood is 75 yards away from the Inn. It could be reached from the second story of the Wildwood by a staircase as the Inn is built on the hillside giving access to the main level of the street from the second story by several steps. This building is such that you can use the elevator or go down steps and the rooms each lead to an outside balcony arrangement. Campbell disappeared between 7:40 P.M. and 8:30 P.M. She was officially reported missing at 10:30 P.M.

Investigator David Bustos of Vail Police Department then told of a missing girl from Vail, Colorado. Julie Cunningham, age 26, worked at a sports shop in Vail and did part time ski instructing. She had worked there two years. On March 15, 1975 she left another apartment in her apartment complex at approx. 6:30 P.M. to return to her apartment, which she did. She talked to her mother on the phone long distance at 8:30 P.M. She was then supposed to meet her roommate at a bar two blocks from her apartment for a drink between 9:00 and 9:30 P.M. In

leaving her place she would probably walk to the meeting place by taking East Meadow Drive for 700 feet across a covered bridge to the Mall at Vail. Ore Creek Drive was another street she could have taken from her apartment but it was in the opposite direction of her destination. Inv. Bustos went through her apartment thoroughly. Her apartment was extremely clean with few clothes as there was little closet space, just clothing for skiing and casual clothing. It was his opinion on talking with her roommate, who knew victim's clothing well that she was wearing a brown suede coat, ski hat, jeans and boots when she left. The subject was a very popular girl. She was well liked, outgoing but not a loose girl. Insp. concluded, after talking to guys she had dated, that she wasn't easy but wasn't a prude either. Her diaphragm, which her roommate stated she wouldn't go across the street without, was found in her bedroom drawer, along with car keys, wallet, toilet articles, favorite coat, special face soap for a skin problem, etc. Victim had just returned from a ski trip with a guy to Sun Valley. She had taken two weeks off, instead of the one week that she had asked for, which was unusual for her inasmuch as she was considered very dependable. It was speculated that the reason for this was that she had found a guy that she wanted to settle down with. The trip had not been too good as when they arrived in Sun Valley the man she had gone with met some of his former girlfriends. Cunningham was a little depressed about this and had mentioned it to her mother in their conversation of March 15, 1975. She had left Sun Valley on the Wednesday prior to March 15 to return to Vail. Male acquaintances in Vail were polygraphed with no positive results. Gas was purchased by Bundy in Dillon and Silverthorne, Colorado on March 15, 1975. Dillon and Silverthorne are close to Vail. Of note is the fact that these two towns are only 1.3 miles apart. The man who runs the Silverthorne station definitely recognizes Bundy. Also the Chief of Police of Silverthorne recognized Bundy. The Chief had to go to Breckenridge, Colo. to Court and had stopped by the Holiday Inn in Frisco, also near Vail. He was waiting in the lobby to be seated in the coffee shop. He remembers Bundy coming in, spotting him, turning and leaving. He was wearing a blue ski jacket (wet look) and a yellow turtle neck shirt. In Silverthorne the station remains open until midnight. Bundy only purchased 1.9 gallons or .89 worth of gas. The Dillon attendant remembered the car but not Bundy. He gassed there in the afternoon.

Det. Thomas Shomaker of Boulder County Sheriff's Department then spoke about his case. On 4-23-75 Melanie Suzanne Cooley, (victim) was found clothed but with her jeans pulled down and unzipped, blouse torn in front, jean jacket with blood on sleeve. She had been struck at base of skull, probably not going fully unconscious, then struck a second time by a 35-45 pound rock which was dropped on her head. She had scratches on front of body where blouse was ripped open. It was speculated that this might have been the work of hippie-type individual due to the condition of a pillow case which was around her neck. Her hands were bound with green nylon cord in front of her body with this dirty pillow case rag around her neck. It is speculated that

the rag had been used as a blindfold, which had slipped. A portion of the pillow case blindfold had been torn away. At first her father was a suspect as he had been having sexual relations with his daughter as well as the daughter's girlfriend. It was noted that the father one Eric (Mountain horse) Harris had spend 18 months of a two year sentence in the state penitentiary for bad checks. This case has not been solved to date.

A talk was then give by Bob Demming, Undersheriff of Clear Creek County in Georgetown, Colorado. On 6-30-75 Kelly Robertson left her home for work at her father's printing shop in Golden, Colorado. She was last seen at 34th. & Sheridan Streets in Denver hitchhiking to her job. She was seen at this location getting into an old 1952-1957 Chevrolet pickup truck, red in color, with a bearded subject. She did place a phone call that evening so was still alive at that time. On 8-23-75 two young people working for Amax testing for gas content found her body in a mine shaft three miles East of the Summit of Berthod Pass. The victim's body was covered with mold. Also found were two pieces of torn furnace tape, one on the body and one nearby. She had been struck on the front side of head and top rear of head and also had been struck on the right front chest. She had been picked up at or near the junction of I-70 and Colfax and never seen again until 8-23-75. It was noted that she had been attending a Transactional Analysis group.

Ed Thompson, Undersheriff of San Miguel County in Telluride then gave a talk regarding their missing female. On September 24, 1975 Kathryn Mary Kelly left with her boyfriend, Richard Ackley who is a Merchant Marine from Maine enroute to Tellurid, Colorado. They arrived in Telluride on September 26, 1975 and spent the night together in a house she had rented in Telluride. On the following morning Ackley left her to return to the Merchant Marines. That day 9-27-75 she spent the day shopping and setting up her new household. She had purchased plants, new sheets, etc. That evening she was seen at a couple of the local bars by friends. She was last believed seen at 11:00 A.M. Sunday walking over Bear Creek Bridge. She was seen by an acquaintance who was driving in a car at the time so could not be absolutely positive that it was her. She was wearing blue jeans, a red white & black flannel shirt and hiking boots. It was believed that she was going out for a hike. She has never been seen again. An extensive search was made by search and rescue to no avail. She is 5'7", 130 lbs., long brown hair, green eyes, DOB 6-14-55. It was stated that a guy was seen in the bar on Saturday night, who one girl complained had constantly stared at her. He had asked her what the after hour action was and when she told him there was none and she was waiting for her boyfriend he split. The boyfriend of Kelly, one Ackley, Richard Carl, DOB 9-18-49, 6'2", 170, brown collar length hair, shorter now, driving 1969 Chevrolet Chevelle, gray with black vinyl top, SS # 005-50-5810. This subject will be polygraphed as soon as possible.

Sheriff Whitmire then related, in the absence of Sheriff Hogue, that in 1974 a married woman was abducted while hitchhiking toward New Castle, Colorado. She had been dragged through the sand and thrown in the river. She was found two days later. Her husband cleared on the polygraph. This crime has never been solved.

Mike Fisher, Investigator for the D.A.'s office in Aspen then described another suspect for everyone's reference: Hugh Michael Joseph Temos, DOB 5-26-43, 6', 175 lbs., light brown hair, light blue eyes, with receding hairline, who has a record of being a flasher. He has been in the Seattle, Portland, California, Aspen and Vail, Colorado areas. He was driving a light brown station wagon with Washington plates. His FBI number is 67430 L10.

It was then suggested that everyone attending the meeting make an effort to circulate and exchange all current credit card information with regard to gas purchases made by Bundy.

Captain Nick Mackie then made a plea for cooperation of everyone attending to keep silent with regard to inquiries from press regarding the meeting and the subject matter discussed for obvious reasons. It was stressed that pre-trial publicity would blow any chances of getting a conviction on Bundy. Bundy's hearing is set for 11-21-75.

David Yocom, Salt Lake County Attorney, made comments also on the importance of silence with regard to the press. He stated that Bundy is represented by John O'Connell. He mentioned that O'Connell has speculated that if Bundy gets out on bail he will stick to his current line of innocence, commit suicide or possibly get wiped out. He also mentioned the possibility of O'Connell agreeing to a private psychiatric examination of his client, results of which would not be available to anyone but Bundy's counsel. He had also mentioned the possibility, that if he felt Bundy was guilty, he might cop to one of these cases if other jurisdictions would agree, getting him put away in a mental institution as in the Boston Strangler case. Yocom stated he believed Bundy will get bound over on the Aggravated Kidnapping charge but will probably have the Attempted Homicide charge thrown out. If Bundy testifies the chances of conviction are good and if he doesn't his chances of conviction are poor. He stated that the press coverage in Salt Lake had not been bad to date. Yocom thinks that Bundy will be tried before Christmas. O'Connell had set a high fee so that slowed things down for a while. To date, Bundy has not bonded out. At first it looked like friends in Washington would get the money up. This has slowed down after publicity about the credit cards, etc. Yocom stated that O'Connell and his associate, Bruce Luback (sp?) like publicity and like to talk about their cases. O'Connell likes to have his name in print. Yocom thinks he is a very fine, ethical attorney and thinks he will ~~not~~ Bundy to cop if he is in on this.

Someone then mentioned that another witness has come forth and identified Bundy as having approached her after he was released on the Possession of Burglary Tools charge and said "Hi, Thou Sayesth the Lord" and then smacked her. Another witness, a 72 year old rape and beating victim has come forward and identified Bundy as her assailant. It was then mentioned that possibly many more would come forward with statements of this nature.

Mike Fisher then thanked everone for their cooperation in making the meeting such a successfull exchange of cases and ideas. A list of agencies attending was distributed and everyone was encouraged to contact different agencies if necessary.

The meeting was concluded at approximaately 11:30 A.M. on 11-14-75.

M. Wiggins, Deputy  
Pitkin County Sheriff's Dept.
